

Remote Learning Statement

From the beginning of the Coronavirus pandemic, across **KWEST** we have been working hard to support our students, parents and staff through these unprecedented times - whilst acknowledging that individuals will be living through their own very different experiences.

Some aspects of our education system will be permanently changed by this pandemic, but to navigate the uncertainty generated by the challenges and ensure that learning is continued, irrespective of lockdown or self-isolation, each of our schools has produced a bespoke and personalised **Remote Learning Policy**.

Each of our Academies offer remote learning opportunities whilst also acknowledging that some households have limited access to devices and would require hard copies of work and resources.

Each plan complies with the expectations and principles in the DfE document [Guidance for Full Opening of Schools](#).

Each of our school's plans aim to mitigate the effect of extended school closure on students' learning and support parents to navigate the challenges of home education. They also support teachers to share resources and collaborate remotely, helping to reduce individual workload and pressure.

To find out more about how your child's school is delivering remote learning, please have a look on their school website. You can expect to find the personalised plan for your school along with any support and guidance.
